

3 Seconds Can Change The World

Fostering Sustainable Behaviors

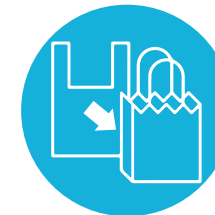

Reduce Greenhouse Gas Emissions

- Pilot phase reduced carbon emissions equivalent to 14.2 hours of driving a personal vehicle per month*
- Oscar has the potential to offset an estimated 8 days equivalent of a NYC cab driving around the city – a 1,476% higher carbon offset*

Reduce Waste At The Source

- Reduce landfill-bound waste. Pilot phase achieved 90.4% accuracy in disposed items*
- Over a three-month period, consumers increased compostable diversion by 27%*

Adopts As Packaging Changes

- Increased recycling up to 300%
- Saves time and money in manual sorting

*Data collected between Oct. 2021 and Jan. 2022 at pilot locations.
